EDUCATION

Master of Science in Information Systems, Northeastern University	<i>September 2024 – August 2026</i>
Relevant Coursework: Distributed Systems, Operating Systems, Database Systems, Machine Learning	<i>GPA: 3.9/4.0</i>
Bachelor of Engineering in Information Technology, University of Mumbai	<i>August 2018 – May 2022</i>
Relevant Coursework: DSA, ML, AI, DBMS, Applied Mathematics, DL, OS	<i>GPA: 3.7/4.0</i>

TECHNICAL SKILLS

Product Marketing:	Go-to-Market Strategy, Product Positioning, Product Messaging, Customer Segmentation, User Research, Market Analysis, Competitive Analysis
Product Management:	Product Strategy, Product Roadmaps, Feature Prioritization, Product Requirements, Customer Journey Mapping, Cross-functional Leadership
Analytics:	SQL, Excel, Power BI, KPI Development, Product Analytics, Dashboarding, Experimentation, Data Visualization
AI & Engineering:	Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, REST APIs, Python, Agile

WORK EXPERIENCE

Technical Product Manager Intern – CUDA NVIDIA Santa Clara, CA	<i>August 2025 – December 2025</i>
- Owned developer-facing AI platform initiatives by partnering with engineering, research, technical marketing, and product teams to define roadmap priorities, launch new capabilities, and improve the CUDA developer experience. - Synthesized customer feedback, product usage analytics, competitive research, and technical insights to prioritize product enhancements that increased platform adoption and aligned with business objectives. - Collaborated cross-functionally on product launches, reference solutions, technical demonstrations, and go-to-market readiness while ensuring alignment across engineering and business stakeholders. - Authored product requirements, technical documentation, executive presentations, positioning materials, and success metrics to communicate product value and support strategic decision making.	
Software Engineer LTIMindtree Mumbai, India	<i>July 2022 – August 2024</i>
- Built and shipped enterprise software products by collaborating with engineering, product, and business stakeholders to define user requirements, prioritize product features, and deliver customer-focused digital experiences. - Conducted customer workflow analysis using SQL, operational metrics, and product analytics to identify adoption opportunities, improve user experience, and increase operational efficiency by 18%. - Partnered with cross-functional teams throughout feature planning, launch, testing, and post-release optimization while incorporating customer feedback into continuous product improvements.	
Technical Program Management Intern Shatakshi Group Mumbai, India	<i>July 2021 – August 2021</i>
- Owned the end-to-end delivery of an internal workflow application by gathering stakeholder requirements, defining product functionality, coordinating implementation, validating releases, and driving successful user adoption. - Conducted user interviews, workflow analysis, and competitive research to identify operational pain points, prioritize enhancements, and improve overall product usability. - Built dashboards tracking product usage, operational KPIs, customer feedback, and feature adoption, enabling continuous optimization through data-driven product decisions.	

PROJECTS

AI Customer Intelligence Platform	<i>May 2026</i>
- Built and launched an AI-powered customer intelligence platform using Python, SQL, OpenAI APIs, and RAG to analyze customer feedback, identify product opportunities, and generate actionable roadmap recommendations. - Designed executive dashboards measuring feature adoption, customer engagement, and product usage trends while leveraging AI-generated insights to improve go-to-market planning and product positioning.	
AI Product Analytics Assistant	<i>May 2025</i>
- Designed and shipped an AI-powered product analytics assistant using Python, OpenAI APIs, LangChain, SQL, and cloud services that transformed customer feedback, support tickets, and product documentation into actionable insights. - Automated competitive analysis, user segmentation, feature summaries, executive reports, and product performance dashboards to improve stakeholder communication, product strategy, and launch readiness.	

LEADERSHIP & MARKETING EXPERIENCE

Head of Digital Marketing GDG on Campus: Northeastern University Seattle, WA	<i>Oct 2024 – Dec 2025</i>
Team Lead NU Lead Seattle Campus Seattle, WA	<i>Oct 2024 – Dec 2025</i>
Technical Content Writer GDSC BVCOENM Mumbai, India	<i>Aug 2021 – May 2022</i>
Social Media Marketing Intern Unschoo Mumbai, India	<i>Dec 2020 – Jan 2021</i>
